**The High Performance Company**

# QUALITY

Bray Controls is proud to introduce our high performance, highest quality product line.

Bray products combine advanced features with compactness and strength. Through years of field application experience, research and development, we have designed products that meet the stringent requirements of today's fluid process industry. One unique feature is the international compatibility of our valves with most standard flanges.

A modular concept of design allows complete interchanging of components, ease of part replacement, and direct mounting of our modular actuators, valves, as well as our Brayline accessories. You will find additional design advantages throughout our product literature.

Bray products are built to last. They feature engineering excellence and precision manufacturing from materials of the highest quality. Rugged and reliable, the Bray product line is engineered to provide years of trouble-free service.

All this results in efficient service and economical savings to our customers. In addition, Bray is committed to continued customer support. Feel free to consult us about any special requirements. Our trained staff offers qualified instruction and personal attention to detail.

The Bray modular product line offers you the best in compatibility, economy and quality performance in the industry today. Bray Controls, the high performance company.

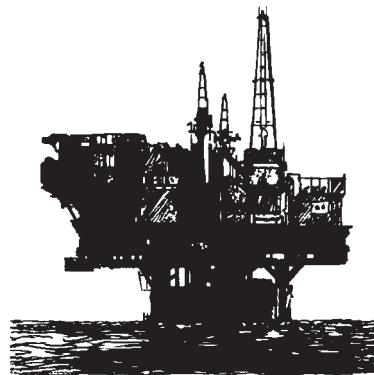

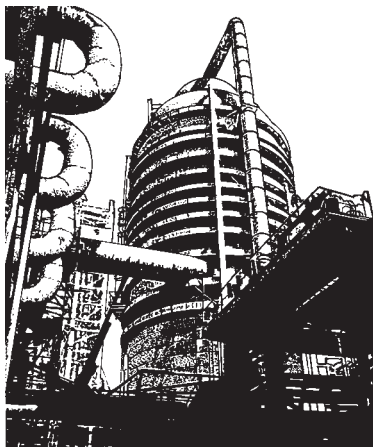

Bray's product lines have applications in a wide range of industries. The following list contains many of the markets we serve.

## CHEMICAL PROCESS INDUSTRIES

Chemical  
Pulp and Paper  
Petroleum Refining

## UTILITIES

Electric Power Generation  
Gas Distribution  
Water Treatment and Waste Water Treatment

## GOVERNMENT AGENCIES

Corps of Engineers  
Bureau of Reclamation  
G.S.A., Others (includes Gov't.  
Buildings, Fish Hatcheries, Dams)

## COMMERCIAL

H.V.A.C.  
Swimming Pools, Other Commercial

## FOODS AND BEVERAGE

Brewing, Distilling  
Wine, Other Beverages  
Food Processing

## MICROELECTRONICS

## TRANSPORTATION

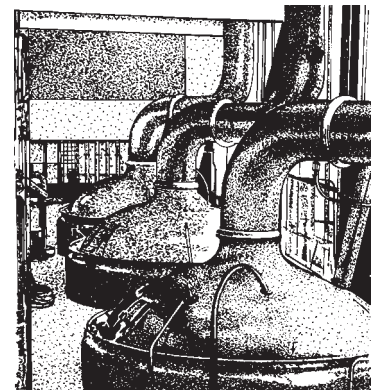

Liquid and Bulk Haulers  
Pneumatic Conveying  
Commercial Shipbuilding  
Navy Shipbuilding

## OIL FIELD

On-shore Oil Production  
Off-shore Drill Rigs and Production

## INDUSTRIAL

Pharmaceutical  
Irrigation  
Textile  
Steel Production  
Non-ferrous Metal Production  
Mining and Metal Ore Processing
