Bray®

GLOBAL COMPANY. **REGIONAL** FOCUS. **LOCAL** PRESENCE.

COMPANY PROFILE

BRAY IS COMMITTED

> *"**Our greatest assets are our people – our employees, our customers, and our partners.** Bray is committed to people – empowering our employees and trusting our partners. Together we are serving our customers and solving problems by innovating our products and consistently focusing on quality and reliability."*
>
> - CRAIG BROWN
> OWNER & CEO

PEOPLE

Bray was built by dedicated people who instilled a strong culture to consistently deliver high-quality, customer-driven solutions with employees and partners who deliver these solutions to our global customers by focusing on innovation and improvement.

INNOVATION

Since 1986, Bray has provided flow control solutions for applications that demand the highest degree of reliability and continued to invest heavily in our R&D centers around the world to drive innovation. This investment into the future has driven expansion of our product portfolio to include a wide range of isolation and control valves, actuation, and smart controls.

LOCAL PRESENCE

As a global company, Bray has proudly established regional roots near our customers. Our research & development, manufacturing, and distribution networks are purposely structured to focus on the specific challenges of local industries and applications.

CUSTOMER SOLUTIONS

Bray's reputation for excellence comes from creating products of superior value and quality, providing personalized customer service, and delivering on-time. As a key ingredient, our fully integrated product line is engineered to solve the real-world challenges our customers face within many industries.

OUR HISTORY

1986 Bray Valves and Controls founded by Craig C. Brown and Frank J. Raymond in **Houston, Texas USA**

1987 Assembly and test of the first self-produced butterfly valve

1988 First subsidiary founded in **Scotland**

1988 **Series 90/91** Pneumatic Actuator

1993 **Series 22/23** PTFE Butterfly Valve

1996 Expansion to **Germany**

1996 **Series 70** Electric Actuator

McCannalok™ HP Butterfly Valves

1999 New **UK** factory

1999 FlowTek® Ritepro® ultraflo®

2001 **Series 52** DeviceNet Actuator Interface

2003 Expansion to **Brazil** & **China**

2003 **Series 92/93** Pneumatic Actuator

2005 New R&D Facility in **HangZhou, ZhenJiang, CHINA**

2006 **Series 6A** Digital Positioner

2009 **Tri Lok®** Triple Offset Butterfly Valve

2011 New R&D Facility in **Houston, Texas, USA**

2011 **McCannalok™** Cryogenic valve

2012 Expansion to **India**

New R&D Facility in **Chennai, Tamil Nadu, INDIA**

2014 VAAS KUGELHAHN MÜLLER

2017 Amrésist®

2018 SLURRYTUFF®

2021 New **Uruguay** warehouse — increase regional support for **LATAM** markets

2022 **Series 98EH** Electro-Hydraulic Actuator

Cx Line Valves for Chemical Processes

2023 **Acris® Series 24/25** PFA Lined Butterfly Valve

2024 Cleanroom Services Expanded in **USA & UK**

2024 **Series 76** Industrial Electric Actuator

Series 943/953 Knife Gate Valve

2025 New Facility in **Guatemala/ Central America**

New Facility **in Saudi Arabia**

2025 **Series 98C** Compact Scotch Yoke Actuator

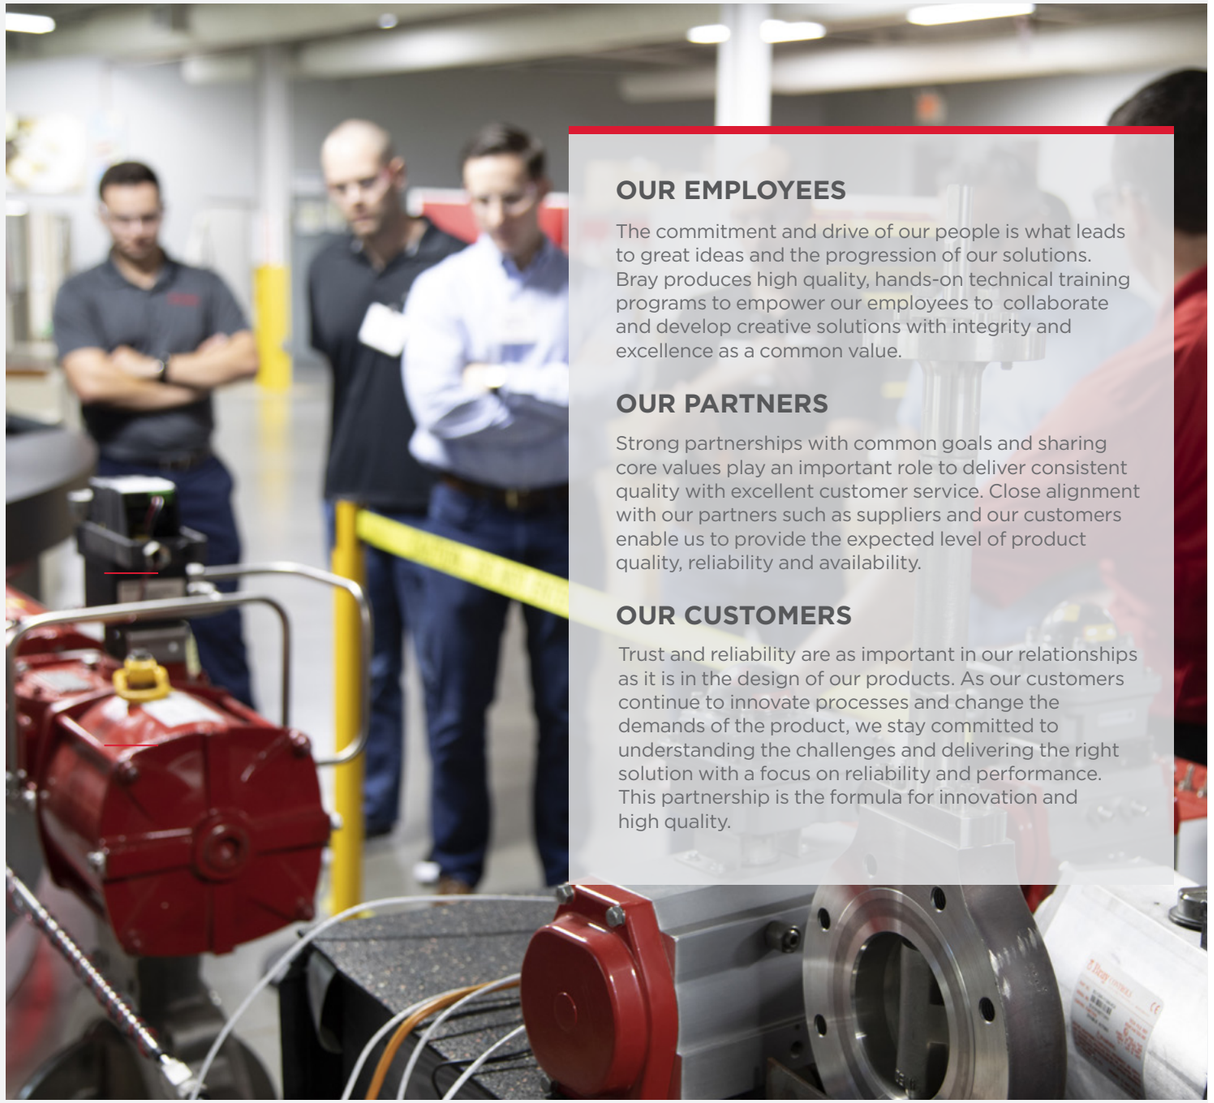

LOCAL PRESENCE — INNOVATION

OUR COMMITMENT TO PEOPLE

> ***Achieving Excellence is Never Easy!*** *Bray's focus on excellence and integrity is more than just a part of our company values – it is our philosophy and how we choose to operate. This aspect of our culture– being the very best when it really counts – is what our customers have come to expect."*

OUR EMPLOYEES

The commitment and drive of our people is what leads to great ideas and the progression of our solutions. Bray produces high quality, hands-on technical training programs to empower our employees to collaborate and develop creative solutions with integrity and excellence as a common value.

OUR PARTNERS

Strong partnerships with common goals and sharing core values play an important role to deliver consistent quality with excellent customer service. Close alignment with our partners such as suppliers and our customers enable us to provide the expected level of product quality, reliability and availability.

OUR CUSTOMERS

Trust and reliability are as important in our relationships as it is in the design of our products. As our customers continue to innovate processes and change the demands of the product, we stay committed to understanding the challenges and delivering the right solution with a focus on reliability and performance. This partnership is the formula for innovation and high quality.

OUR COMMITMENT TO LOCAL PRESENCE

> ***All business is local.***
> *This conviction led us to establish our first subsidiary in 1988 – a mere two years after founding Bray."*

SALES & DISTRIBUTION LOCATIONS

GLOBAL COMPANY

Our diversified headquarters develop and maintain standard processes for engineering & technology, manufacturing, assembly, and testing facilities across six continents—ensuring consistent product quality and reliability.

REGIONAL FOCUS

Our ISO approved design and manufacturing facilities are strategically located to ensure customized solutions with short delivery times.

LOCAL PRESENCE

Factory-certified sales and distribution networks in more than 40 countries are available to serve you locally. Our staff is knowledgeable of all Bray products and their applications, providing an unmatched level of customer support.

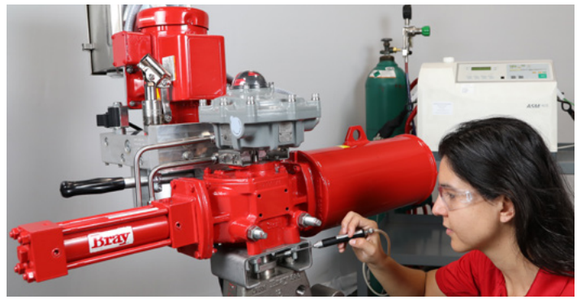

OUR COMMITMENT TO INNOVATION

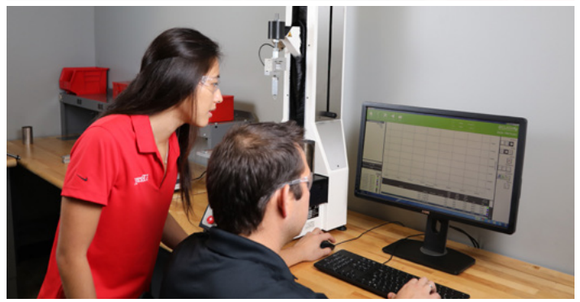

RESEARCH & DEVELOPMENT

As a leading technology innovator with advanced engineering, research, and development capabilities, Bray focuses on integrated and optimized flow control solutions. Our in-house technology centers simulate real-world environments where we can ensure the highest levels of product performance, quality, and reliability.

Established engineering procedures include research, analysis, testing, and validation for:

- material properties
- metallurgy, coatings, & elastomers
- actuation, automation, & controls
- hydraulics, fluid dynamics, & flow
- heat transfer analysis
- finite element analysis
- performance optimization
- product & component life-cycle
- electronics & iioT
- 3d printing & prototyping
- manufacturing techniques
- cryogenics & other specialty applications

> ***As a privately held company,*** *Bray is able to quickly respond and perform with agility as we reinvest in our products and solutions."*

QUALITY

We are passionate about quality. Bray's quality program encompasses all aspects of the manufacturing process from initial material verification to assembly, testing, and shipping the final product. We ensure that our products are designed, manufactured, and certified to the most stringent requirements while providing years of reliable operation.

Our global team maintains all quality management system operating procedures and work instructions. Implementation at each of our locations includes training and knowledge sharing to ensure consistency across the globe. Additionally, many of our team members actively participate in global industry standard organizations – such as ISO, API, ASME, EN, DIN and MSS – to help develop and update standards as industries evolve.
