TECHNICAL DATA

OVERVIEW

The Bray Series 746HP features a one-piece polyurethane liner molded throughout the body and chest providing Zero Leakage in the most abrasive applications. The liner extends over the front face of the body, ensuring total protection from abrasive media and eliminating the need for additional gaskets.

The one-piece, durable ductile iron body is offered in a compact wafer style for ease of handling and installation.

SPECIFICATIONS

Size Range	NPS 2 to 24 DN 50 to 600
Temperature Range	Polyurethane: -20°F to 194°F -29°C to 90°C
Pressure Rating	150psi 10bar 232psi 16bar
Body Style	One-Piece - Wafer

DESIGN STANDARDS

Face-to-Face	MSS SP-81
Flange Drilling	ASME B16.5 CL150
Design Standard	Manufacturer Standard
Testing Standard	MSS SP-151

STANDARD CONSTRUCTION

Body	Ductile Iron
Gate	10bar 316 Stainless Steel 16bar 2205
Liner	Polyurethane
Stem	304
Gland	Carbon Steel
Packing	PTFE Impregnated Synthetic Fiber + Quad Seal
Topworks	Carbon Steel

ACTUATOR OPTIONS

Direct Mounted Handwheel | Bevel Gear Operator
Double Acting Pneumatic | Hydraulic | Electric

MATERIAL OPTIONS

Body	Ductile Iron
Gate	304, 317 Stainless Steel 17-4PH Stainless Steel SAF 2507 Duplex SAF 2205 Duplex Hastelloy® C Monel®
Stem	316
Packing	PTFE w/Copper Wiper Graphite PTFE w/Viton Quad Seal

FEATURES

- 1 Upper and lower protective stem cover is standard in all models, increasing cycle life in hazardous environments.
- 2 Multi-layer square packing with energized quad seal provides exceptional gland sealing.
- 3 Standard one-piece ductile iron body with polyurethane molded liner throughout. Polyurethane body liner is rated up to 194°F/90°C and completely protects valve body from abrasive line media.
- 4 Unrestricted flow path with minimal pressure drop achieved through full port valve design for extended valve life.
- 5 Available in a wide range of corrosion-resistant alloys, the robust tapered edge gate efficiently cuts through thick slurries or solids in the flow.
- 6 Seat and port designed to be flush eliminating cavities where media can collect and prevent full gate closure.

INDUSTRIES

Wastewater

- > Slurry/Sludge Lines

Mining

- > Mineral Mining
- > Coal Washeries
- > Coal Preparation

Power

- > Fly Ash | Bottom Ash
- > Branch Lines

Chemical

- > Process Fluids & Chemicals
- > Petroleum Products

NOTES

1 Actuator sizing done based on actuator supply pressure of 5 bar
2 Factor Of Safety (FOS) on design thrust>=2.0

VALVE SELECTION

VALVE PART NUMBERING SYSTEM

Select one code from each category to build a complete valve order number.

NOTES:

1 For a complete list of standard materials and descriptions, refer to MATERIALS OF CONSTRUCTION. Other materials are available, please contact Bray for additional information.

2 No assigned code, ASSEMBLY NUMBER is generated by Engineering configurator.
