

## **Bray Consolidates California Sales, Service, and Distribution into the Bray Process Control family**

As part of our ongoing commitment to delivering exceptional service and streamlined solutions, we have unified two of our trusted regional brands—T&T Valve and Instruments and Bray Sales Southern California—under a single, stronger identity: **Bray Process Control – West Coast**.

This strategic brand consolidation reflects our dedication to aligning with Bray's national and global operations, while continuing to serve our customers with the same excellence and reliability they've come to expect.

### **What This Means**

The formation of Bray Process Control – West Coast brings together the strengths of two well-established teams, enhancing our ability to serve the process control market with greater efficiency, broader expertise, and a unified customer experience.

### **Key Highlights:**

- **Expanded Capabilities:** Our full portfolio of high-performance valves, actuators, and flow control solutions remains unchanged—delivering the same quality and innovation you trust.
- **Streamlined Operations:** A single brand name across the region simplifies communication, ordering, and support—especially for customers working with Bray across multiple locations.
- **Unified Expertise:** The combined knowledge and experience of our teams ensures even stronger technical support, faster response times, and tailored solutions for your unique challenges.

While our name has changed, our commitment to excellence has not. All existing agreements, projects, and support services will continue without interruption. Customers can expect the same account details and seamless service throughout this transition.

We're excited about the future of Bray Process Control – West Coast and the enhanced value this brings to our customers and partners. For any questions or additional information, please reach out to your Bray representative or our customer service team.
